## Click to Dial – Chrome Plug-In

Open your Chrome browser;

Download the plug-in here: <https://chrome.google.com/webstore/category/extensions>

Then in the search bar, search for: Mobile Voip Connect

If you are not already logged in to your extension, go to [connectmevoice.com](https://connectmevoice.com), click login, and log in with your main number, your extension and your pin;

After installing, any web page that shows a phone number, will now show a phone icon.

 1 732-490-9007

Click on the phone to dial, you will get a message on the screen telling you the number is being dialed;

If you are not logged in, you will be prompted to log in;

Any of your phones that are registered will ring, answer it and you will be on the call.
