## Click to Dial – Chrome Plug-In

Open your Chrome browser;

Download the plug-in here: <https://chrome.google.com/webstore/search/Mobile%20Voip%20Connect>

Then in the search bar, search for: Mobile Voip Connect

If you are not already logged in to your extension, go to [connectmevoice.com](http://connectmevoice.com), click login, and log in with your main number, your extension and your pin;

After installing, any web page that shows a phone number, will now show a phone icon. If you are not logged in, you will be brought to the ConnectMeVoice login page. At that point you must log in to your extension, then your outbound call will dial out.

+ 1 732-490-9007

Click on the phone to dial, you will get a message on the screen telling you the number is being dialed;

If you are not logged in, you will be prompted to log in;

Any of your phones that are registered will ring, answer it and you will be on the call.
