

Cloudli Acquires ConnectMeVoice to Expand Presence in the US Business Communications Market

Joint Offering Strengthens Business Communication Options for Managed Service Providers, Resellers, and Small Businesses in North America

MONTREAL, QC – JUNE 23, 2022 (PRWEB) JUNE 23, 2022

Cloudli Communications, a Montreal-based leading provider of voice, data and messaging solutions, today announced that it has acquired **ConnectMeVoice**, a New Jersey-based provider of next-generation hosted voice over IP (VoIP), unified communications as a service (UCaaS) and contact center as a service (CCaaS). The acquisition strengthens Cloudli's position as a leader in the North American market while expanding its cloud business communications offering to partners and customers in the US.

As telecommunications consolidation trends prevail across the business communications ecosystem, ConnectMeVoice and Cloudli have joined forces to offer an even stronger alternative for service providers and small businesses (SMBs) looking for reliable, cost-effective and flexible business communications options that support their rapidly changing needs.

ConnectMeVoice's robust product portfolio includes its new feature-rich Clarity platform, contact center, text and chat, SIP trunking, and more. Purpose-built on modern APIs, ConnectMeVoice's services can be leveraged by channel partners and resellers, white labeled by managed solution partners, or integrated into third-party applications for maximum flexibility. These solutions, combined with an innovative call-path pricing model, level the telecommunications playing field for Managed Service Providers (MSPs) and their clients, by offering them all the next-generation benefits of a cloud-based unified communications platform typically only available to larger organizations.

ConnectMeVoice solutions are delivered through its nationwide network of Managed Service Providers, resellers and partners. Trusted by thousands of businesses for their telecommunications needs, ConnectMeVoice processes over 12 million calls and messages each month. Together, Cloudli and ConnectMeVoice have over 1,000 channel partners and resellers, more than 8,000 customers across North America, and over 80 employees and contractors.

"We are excited to announce the acquisition of ConnectMeVoice and welcome their talented team to Cloudli," said Gavin Macomber, President and CEO of Cloudli Communications. "The ability to offer ConnectMeVoice's hosted VoIP, UCaaS and CCaaS solutions within Cloudli's next-generation business communications portfolio will provide managed service providers, resellers, and small businesses with greater choice and flexibility as they transform their businesses to the cloud."

"Throughout our history, ConnectMeVoice has been committed to offering high-quality service and flexible solutions," said Scott Seltzer, CEO of ConnectMeVoice. "Becoming part of Cloudli allows us to further enhance our efforts to help our partners grow their businesses."

ConnectMeVoice by Cloudli

“The ability to offer ConnectMeVoice’s hosted VoIP, UCaaS and CCaaS solutions within Cloudli’s next-generation business communications portfolio will provide MSPs, resellers, and small businesses with greater choice and flexibility as they transform their businesses to the cloud.”

Cloudli will retain the existing ConnectMeVoice team to provide complete continuity for its partners and customers. Scott Seltzer will continue to manage day-to-day operations as General Manager for ConnectMeVoice. Chris Van Wagoner, ConnectMeVoice's Chief Operating Officer, will assume the same role for the newly combined organization.
